

THE KENNEYS

MISSIONARIES TO GHANA, WEST AFRICA

April 2024

Dear Pastors and Prayer Partners,

I am sorry that it has been so long since our last prayer letter. I try to send them out bimonthly, but time has gotten away from me. We have been so busy lately.

Our church in Kojokrom is going well. We moved into our building in December, and we have seen some growth. We put in one of our prayer letters about needing a van, and praise the Lord, we have a van now! It is a 2009 Nissan caravan. It was imported from Japan and has relatively low miles for its age. It had never even been registered in Ghana, which is a good thing, believe me. I have been picking up members for three weeks now. It has been such a blessing. We had to get seats for the back of the van because it was originally a cargo van. Then we had to get sliding windows so everyone would not suffer heat stroke on the way to church. After praying and looking for months, God led us to the one that we needed. It is not a 4-wheel drive like we wanted, but it has been working out well.

We have been averaging about 25 to 35 every Sunday and have had as much as 45 in a service. We had a church fellowship on the Monday after Easter. They call that Easter Monday here, and we had close to 70 for that. We have had seven make professions, and all seven are still attending church. We are so excited about what God is doing in Kojokrom! Please keep Mount Moriah Fundamental Baptist Church in your prayers.

Tonya is planning a ladies' breakfast for the mothers in our church for the Saturday before Mother's Day. She will be doing most of the cooking and preparations herself. She is planning on giving a short devotion on the importance of having daily time to read and study God's Word and the importance of teaching their children to know and love God. Please pray for her. She really wants this to go well.

The electrical grid has been having issues here in Ghana, well, in West Africa in general. Our power goes out every day, and most of the time, it is out for at least 10 hours. We never know when it is going to go out and how long it will last. We have had numerous church services with a couple of battery-powered lights for light. We try to keep them charged up so they are ready when needed. We have been told that they have this issue every time there is a presidential election, and after the election, things will settle down. We have not been here for an election before because we were on furlough during their last one. The elections will not be held until December, so it is going to be a long year if that is the case. Seriously, pray for the Ghanaians. Some villages have gone for as much as four days without power. During the hot season, it is hard to sleep when you cannot even turn on a fan. We do have a generator. When the power is out for more than a couple of hours, we run it so our food will not go bad in the freezer and refrigerator. Thank you to the person who helped us get that generator. It has more than paid for itself this past year.

God has been good to us. Thank you for your continued prayers and support.
